

Master Schedule for the NJ PPG Chrome Remediation Sites

Revision Date: January 27, 2026

Soils

| Group/Phase or Site | Property Description (Owner) | Access/Road Closure Plan | Excavation Start Actual OR Required | Excavation Complete Actual OR Required | Backfill Complete Actual OR Required | Restoration Complete Actual OR Required | RAR Determination | Comments |
|--------------------------------------|--|---------------------------|-------------------------------------|--|--------------------------------------|---|-------------------------|--|
| GA Group Phase 5 Off-Site Properties | Forrest Street Properties 84, 86-90, and 98-100 Forrest St (Halladay Forest LLC) | Access Agreement in Place | See Comments | See Comments | See Comments | See Comments | 5/1/2024 (See Comments) | Following NJDEP approval of the Soil Remedial Action Report ("RAR") for specified Areas of Concern ("AOCs") at this Site, a new condition of chromium blooming was observed in the 98 Forrest Street portion of the building. That condition was reported by PPG in a monthly inspection report submitted to NJDEP on June 28, 2024. Since that time, PPG has installed an interim remedy to address the blooming, but installation of the permanent engineering control for this new condition awaits a resolution of access issues between PPG and the property owner. Once the permanent engineering control is installed, PPG will be required to submit an RAR Addendum that, among other things, will address the new chromium condition. |
| Site 16 | 45 Linden Ave. East (Etzion) (AOC-3) | Access Agreement in Place | 6/16/2014 (See Comments) | See Comments | See Comments | See Comments | TBD | PPG has submitted several versions of a Remedial Action Work Plan ("RAWP") for AOC-3 (Building Footprint, Current Use), the most recent of which was submitted on December 4, 2025. PPG's consultants performed industrial hygiene sampling in each of the tenant areas of this building from September 29, 2025 through October 1, 2025 and from November 11, 2025 through November 13, 2025. The sampling included both air and surface sampling for hexavalent chromium. An independent industrial hygienist retained by the Site Administrator at the request of the JCO Stakeholders ¹ determined that, "for the interior conditions evaluated, the risk of hexavalent chromium exposure to tenant employees to exceed [applicable] criteria appears to be low." The JCO Stakeholders are making arrangements for a meeting to discuss the most recent RAWP submittal and the results of the industrial hygiene sampling as it relates to the remedy proposed in the RAWP. |
| | Linden Ave. East (CenterPoint LLC and NJDOT) (AOC-4) | Access Agreement in Place | See Comments | See Comments | See Comments | See Comments | 9/24/2024 | On August 16, 2024, PPG submitted a RAWP/RAR for AOC-4 (Portion of Linden Avenue East), which was approved by NJDEP on September 24, 2024. PPG recorded the deed notices that were required to be signed by each of the affected property owners. PPG is in the process of submitting a Soil Remedial Action Permit ("RAP") application to NJDEP. Once the Soil RAP is issued, a Consent Judgment Compliance Letter will be issued by NJDEP and the soils at this AOC will be transitioned out of the JCO and will thereafter be monitored by PPG's LSRP in accordance with the terms of the Soil RAP. |
| Site 108 | Albanil Dyestuff (Jersey City Logistics, LLC) | Access Agreement in Place | 6/13/2018 (See Comments) | March 2027 | March 2027 | March 2027 | December 2027 | On July 17, 2025, PPG submitted a revised RAWP that calls for the excavation of CCPW-related impacts at this Site. On August 6, 2025, NJDEP issued an approval of the RAWP, but that approval was conditioned upon documentation of the property owner's consent to the remedy as described in the RAWP. Property owner consent is being withheld pending the negotiation of an access agreement between the property owner and PPG. In the interim, PPG has completed some of the proposed excavation work, but has refrained from performing excavation too close to the buildings until the access agreement is signed with the property owner. The proposed milestones are based on the assumption that the access agreement is resolved in a timeframe that allows PPG to begin excavation adjacent to the warehouse in March 2026. |
| 457 Communipaw | 457 Communipaw Right-of-Way (285 Lincoln Avenue, LLC) | Access Agreement in Place | January 2016 (See Comments) | October 2026 | December 2026 | December 2026 | August 2027 | An auto repair shop and a residential building occupy this Site. The JCO Stakeholders are evaluating various approaches to safely excavate CCPW impacts while protecting the buildings. PPG anticipates submitting a RAWP covering excavation of CCPW-impacts at the Site in April 2026, pending NJDEP concurrence on the Structural-Geotech Evaluation in February 2026. |

“Consent Judgment Compliance Letter” means a letter issued by the Department pursuant to the 2011 Consent Judgment. The Consent Judgment Compliance Letter is the Department’s equivalent of a No Further Action letter that is issued after all appropriate remediation documents have been finalized, an RAR Determination has been made, and after the issuance by the Department of any required remedial action permits with respect to the applicable media and areas of concern.

“2011 Consent Judgment” means the Consent Judgment in the matter captioned New Jersey Department of Environmental Protection, et al. v. Honeywell International Inc., et al., Docket No C-77-05, Superior Court of New Jersey, Chancery Division, Hudson County (filed September 7, 2011).

“JCO” means the Partial Consent Judgment Concerning the PPG Sites entered in the matter captioned *New Jersey Department of Environmental Protection, et al. v. Honeywell International, Inc., et al. v. City of Jersey City, et al., Superior Court of New Jersey, Chancery Division, Hudson County, Civil Action No. HUD-C-77-05*.

“JCO Stakeholders,” for the purpose of this Master Schedule, means PPG, the City of Jersey City, NJDEP and the Site Administrator (Ronald J. Riccio).

“LSRP” means Licensed Site Remediation Professional.

“Principals” means, collectively, PPG, NJDEP, the City of Jersey City and the Site Administrator.

- 2) PPG, NJDEP and the City of Jersey City entered into (and the Site Administrator acknowledged and accepted) that certain Memorandum of Understanding dated as of September 22, 2020 establishing detailed procedures for the removal of PPG sites, portions of sites or media from jurisdiction pursuant to the JCO and the 2011 Consent Judgment and, in certain instances, transitioning same to the LSRP Program (the “MOU”). On October 22, 2020, the Superior Court of New Jersey entered the First Consent Order Transitioning Certain PPG Sites, Portions of Sites or Media to the LSRP Program (the “First Consent Order”). The First Consent Order included an Exhibit A that identified the sites, portions of sites or media that were being removed from jurisdiction pursuant to the JCO and the 2011 Consent Judgment and, in certain instances, transitioned to the LSRP Program.
- 3) This version of the Master Schedule has combined “Exhibit 2” and “Exhibit 3” from the version of the Master Schedule dated October 13, 2015. Prior orders entered by the court in *NJDEP, et al. v. Honeywell International, Inc., et al.* reference those exhibits as exhibits to the Master Schedule, which Master Schedule remains in effect as modified by the changes set forth herein to Exhibits 2 and 3.

SOILS NOTES:

- 1) Green shading indicates that milestones have been attained.
- 2) “Excavation Start” means access has been gained, building demolition and shoring installation, if required, have been completed, there are no known impediments to proceeding with excavation and excavation has actually commenced.
- 3) For Garfield Avenue Group Sites, “Backfill Complete” means backfill is brought to elevations approved by NJDEP.

- 4) For the purpose of this Master Schedule, “restoration” is defined as final remediation grading in accordance with an NJDEP-approved Restoration Technical Execution Plan or other NJDEP-approved document identifying restoration requirements, and a capillary break has been installed if required. In-kind replacement of existing infrastructure (i.e., pavement and utilities) is covered under the PPG/Jersey City Infrastructure Settlement Agreement, which has been agreed to by all Parties.
- 5) Restoration within specific areas under/around infrastructure necessary to support on-going remediation may be delayed if such a delay is acceptable to NJDEP and property owners.
- 6) For the purpose of this Master Schedule, “RAR Determination” means that the Department has determined whether the Remedial Action Report (“RAR”) meets the requirements of applicable Department regulations and guidance. The Department will make this determination assuming: (i) the RAR Figures/Tables have been submitted by PPG and reviewed/approved by the Department prior to complete RAR submittal, and (ii) the initial submittal of the complete RAR (i.e., text plus figures, tables and other Department-required information) is received 26 weeks prior to the RAR Determination milestone. (The referenced 26 week time period assumes 12 weeks for the Department/Weston and the City of Jersey City to provide comments to the initial complete RAR submittal, 7 weeks thereafter for PPG to review and incorporate such comments and submit the final version of the full RAR, and 7 weeks thereafter for the Department to make the RAR Determination).
- 7) PSE&G will take the lead on manufactured gas plant (“MGP”) AOCs located within and emanating from Site 114 under the LSRP program. See letter from PPG and PSE&G to Wayne Howitz, NJDEP, dated July 9, 2019 confirming same.

GROUNDWATER NOTES:

- 1) For purposes of this schedule, the Garfield Avenue Group Access date is assumed to be March 2017.
- 2) “N/A” means not applicable.
- 3) PSE&G will take the lead on manufactured gas plant (“MGP”) AOCs located within and emanating from Site 114 under the LSRP program. See letter from PPG and PSE&G to Wayne Howitz, NJDEP, dated July 9, 2019 confirming same.
